## explanations

The fun way to go over the weekly sedra with your children, grandchildren, Shabbat guests

## SH'MOT

▲ and one Unexplained

Fred & Barney in water

They are the Flintstones. The Hebrew word for a flintstone is TZOR, as with what Tzipora circumcised her son. TZOR is TZADI-REISH. When those two letters into the word MAYIM, you get MITZRAYIM - a word that occurs 45 times in Parshat Va'eira.

## VA'EIRA

7 of the 10 images from the Davka Judaica graphic of the 10 plagues (the final three plagues are in Parshat Bo) <> the MATEH, Moshe's Staff. It is burping because IT (not the TANIN it had changed into) ate the staffs of the wizards after it turned back to its stick identity <> The Torah tells us that the frogs (plague 2) were in the ovens of the Egyptians, producing a Kiddush HaShem and a lesson to us that G-d is still in charge of nature - He renews, every day, the acts of Creation. There is a picture of an oven in the shape of a frog. Not exactly as the pasuk indicates, but I couldn't resist this one <> Four wine cups for the Four Terms of Redemption <> Logo of the SSSJ - Student Struggle for Soviet

Jewry. Let My People Go <> Pictorial representation of Par'o's heart strengthening <> Emblem of the Hogwarts School. Par'o's wizards might have been dropouts from Hogwarts since they were not able to cope with the plague of KINIM (lice) and SH'CHIN (boils) <> Crocs, for crocodile, as in the staff-turned-to-TANIN and possibly participants in AROV <> C is the symbol for carbon, the main (only?) ingredient in the furnace soot that Moshe and Aharon used to bring about the plague of SH'CHIN <> 15 keys arranged for the math game NIM makes it KINIM, a.k.a. KINAM, plague #3 <> Elazar ben Aharon HaKohein married one of the daughters of PUTI'EL; they had Pinchas. Elazar's wife was BAT-POOH-T-L <> Sports teams' logos for AROV. Detroit Tigers (baseball) <> Cincinnati Bengals (American football) <> Memphis Grizzlies (basketball). Grizzlies logo is most appropriate symbol for a plague in Egypt because Memphis was the name of an ancient capital of lower Egypt <> Chicago Bears (American football) <> Boston Bruins (hockey) <> Charlotte Hornets (basketball), according to the opinions that AROV was swarms of harmful insects <> Note: *in choosing sports team logos for AROV, I stayed away from the many options whose logos had the wild animals in them. I wanted to make it more challenging for your Shabbat guests and family* <> Pic of snow cone

- in Hebrew, BARAD, plague #7, with the fire in them <> Lentils, arrow pointing to a single lentil, ADASH, from Rabbi Yehuda's "code" about the plagues <> Uzi and an L, combining to UZIEL <> the frog who thinks that the capital of France is Madrid is a DUMB TZ'FARDEI'A (old joke) <> Letter E on a date ITAMAR <> Livni for the son of Gei-r'shom <> PAR (bull) with a ring in its nose makes PAR'O <> LEVII, which looks like LEVI with an extra I - which could easily be a typo, is really L E and Roman numerals for 7 - read it as: ELISHEVA, wife of Aharon HaKohen <> 100°C and 212°F are the temperatures at which water BOILS, for the plague of SH'CHIN. Boils, get it? <> Born in the sedra; Gimatriya Match for the sedra-name - that's PINCHAS (208) = VA'EIRA (208) - so too for Yitzchak and Hagar (208 each) <> The other flag pictured is that of PALAU - sounds like PALU, son of Reuven <> sword is CHEREV, from the haftara <> Va'eira grandfather & grandson and who else? Levi and Amram each lived until 137. So did Yishmael <> C on the tree is for SITRI, one of the sons of UZIEL <> the prisoner in jail is an ASIR, one of Korach's sons <> The word grapevine backwards is for NEFEG, Korach's brother, another son of Yitzhar <> The right pointing arrow is for YAMIN, a son of Shimon <> CAR-MI, a son of Reuven <> the letter O, a toe, and a necktie combine to the word for My

signs - OTOTA <> and two word Unexplaineds
